

# Objective Criteria for Subjective Coaching Decisions

Kirsten Bernthal Booth  
Creighton University

Statistical Formulas:

Hitting Efficiency =  $(+) - (-) / (+) + (-)$

Efficiency = number of pluses minus the number of minuses, divided by the total number of players.

Kills per game = Total # of Kills / Total # of Games Played

Assists per game = Total # of Assists / Total # of Games Played

Services Aces per game = Total # of Aces / Total # of Games Played

Digs per game = Total # of digs / Total # of Games Played

Blocks per game = Total # of Blocks / Total # of Games Played

## Serve Receive Chart:

Emily
